

It is important to me that national radio services such as K-LOVE radio be able to continue broadcasting through FM translators. I have listened to K-LOVE radio in a number of cities where I have lived over the last ten years or so. K-LOVE has a positive effect on the local community and should not be displaced by other LPFM broadcasters. It is rare in today's radio marketplace that people can listen to stations such as K-LOVE to hear positive messages, rather than vulgar language and topics of discussion on most radio stations. Stations such as K-LOVE should be allowed to continue, in order to provide families with small children content they can be comfortable listening to, no matter the age of their children. These stations also provide hope for those who are not able or not comfortable attending church or asking others for help. Please do whatever is necessary so that stations such as K-LOVE can continue to operate in an economically viable way.

Thank you.
